Code of conduct-Prevention of circulation of unauthorized information by staff

Hiring of Employees

The company will have adequate screening procedures in place to ensure high standards when hiring employees. They should identify the key positions within their own organization structures having regard to the risk of money laundering and terrorist financing and the size of their business and ensure the employees taking up such key positions are suitable and competent to perform their duties.

Employees' Training

Company must have an ongoing employee training programme so that the members of the staff are adequately trained in AML and CFT procedures. Training requirements should have specific focuses for frontline staff, back office staff, compliance staff, risk management staff and staff dealing with new customers. It is crucial that all those concerned fully understand the rationale behind these guidelines, obligations and requirements, implement them consistently and are sensitive to the risks of their systems being misused by unscrupulous elements.

Investors Education

Implementation of AML/CFT measures requires The back office and DP staff to demand certain information from investors which may be of personal nature or which has hitherto never been called for. Such information can include documents evidencing source of funds/income tax returns/bank records etc. This can sometimes lead to raising of questions by the customer with regard to the motive and purpose of collecting such

information. There is, therefore, a need for the back office and DP staff to sensitize their customers about these requirements as the ones emanating from AML and CFT framework. The back office and DP staff should prepare specific literature/ pamphlets etc. so as to educate the customer of the objectives of the AML/CFT programme.
